Building Resistance to Austerity

Turning back the tide of Austerity is the key task facing our union. Local struggles are a key component and victories are paramount.

Barnet UNISON has waged a near 10 year campaign against mass outsourcing and finally a few weeks ago the Barnet Tory Council agreed to end its campaign of mass outsourcing.

Our victory was only possible through campaigning, struggle and solidarity.

We want to thank those many branches who have supported us – but more importantly this meeting is to highlight current struggles and develop solidarity – within and beyond UNISON.

We need to make sure a Tory Government with no mandate, propped up by the DUP cannot impose further Austerity.
