Barnet UNISON

“Proud to serve our Community”

On the 18th October our members came together and shared their time and skills to decorate, clean cupboards and DIY jobs. The Larches Community is always in need of volunteers to help maintain and develop services which is why we will be helping them again on Thursday 9th February from 10.30am onwards.

Below are some quotes from colleagues who wish to share their experience from The Larches:

“We serve the community in our daily work the community spirit that was created was an example to the whole society that by giving a little time and love, you can make an enormous difference to venerable people.”

“This was a fantastic way of engaging with the community”
